

## Aircraft: construction, assembly and subassemblies

- Aircraft with decarbonized propulsion
- Other aircraft
- General aviation, including electric
- Commercial aircraft
- Business aviation
- Military aircraft
- Regional aircraft
- Balloons
- Water bombers
- Airships
- Helicopters
- Military helicopters
- Seaplanes
- Urban air mobility (UAM)
- Gliders
- Prefabricated structure
- Ultralights
- Commercial UAVs and drones
- Military UAVs and drones
- Other products and services relating to aircraft construction

## Avionics, navigation and onboard systems

- Antennas / antenna systems / radars
- Helmets and vision systems
- Onboard data and IT
- Safety and emergency systems, oxygen and rescue systems
- Communication systems / equipment
- Displays, man-machine Interfaces and Instruments
- Air / pressurization systems
- Landing gear
- Flight control systems / cockpits / switches
- Fastening and positioning systems
- Navigation and mission avionics systems
- Position and motion systems (sensors, inertial units, gyroscopes, ...)
- Reconnaissance / surveillance systems
- Fluid transfer systems

Deicing systems and components

Lighting systems and components

Electrical systems and components and associated power supply / storage

Hydraulic systems and components

Optronic systems and components

Other onboard products and systems

## Cabin interiors, seats

Cabin design and refurbishing

Connectivity and inflight communication systems for passengers

Windows and associated functions

Interiors & furniture; installation

Pressurization, air conditioning, filtration and insulation systems

Seats

Ejection seats

Galley systems

Inflight entertainment (IFE) systems, information, audio and video systems

Cabin lighting systems

Toilet systems

Other products and services relating to cabin interiors

## Propulsion, engines, electrification and associated specific equipment

Engine components / controls

Auxiliary power units (APU)

Propellers and components

Piston engines, associated components and systems

Turbine engines, associated components and systems

Electrical power generation and hybrid power systems

Turboprop engines, associated components and systems

Other products and services relating to propulsion and engines

## Materials, composites and surface treatment

Composites

Additive manufacturing

Metals & alloys (steel, aluminum, ...)

Special metals and superalloys

Paint coatings, cleaning and washing technologies

Polymers (elastomers, thermoplastics, thermosets, ...)

Chemical products

Prototyping

Titanium, titanium alloys and critical materials

Surface treatments, corrosion protection and finishes

Other materials, composites surface treatments

## Mechanical and metallurgical, electrical and electronic transformation & manufacturing

Composite parts manufacturing

Electrical / electronic assembly

Electromechanical and mechanical assembly

Cabling

Boilermaking, sheetmetal working

Printed circuit boards (PCBs), electronic cards

Parts manufacturing using special fabrics

Fasteners

Foundries

Forgings

Maintenance

Castings

Tools

Quality and standards

Welding, cutting

Tests and certification

Thermal, mechanical and electrical surface treatments, finishes

Machining

Other transformation and manufacturing activities

## Production processes and equipment

Assembly

Testing, metrology, quality and automated inspection

Automation equipment

Production equipment / machine tools

Surface treatment equipment and machines

Software (design / integration / production / assistance / testing ...)

Special machines

Handling, storage

Molds and tooling

Tooling and components for production systems

Other production equipment

## Maintenance, after-sales, spare parts and transportation

Systems & equipment support

Maintenance-related consumables and chemicals

Conversion, modification, modernization

Aircraft dismantling

Ground handling / support equipment

Test equipment

Testing, test benches and facilities

Inspection and NDT (nondestructive testing)

Maintenance & support for avionics / onboard electronics and components

Maintenance, repair and overhaul (MRO)

Airframe maintenance, repair and overhaul

Engine and engine component maintenance, repair and overhaul

Cabin maintenance, repair and overhaul

System maintenance, repair and overhaul

Flight test equipment (inflight testing / support ... )

Maintenance and repair tooling

Spare parts

Recovery & troubleshooting

Material and component recycling

Component and part repair & refurbishment

Composite repairs

IT solutions and services

Other maintenance, after-sales, spare parts and transportation solutions

## Airport services, fuel and associated equipment

Aircraft ground handling

Fuel and fuel systems

Air freight: terminals and storage facilities, handling and storage systems

Flight operations: airport technologies, installations, runway and taxiway construction and systems, buildings, refueling and logistics installations, lighting systems, hangars

Logistics / storage / distribution

ATC organizations & control towers

Passengers: airport systems, technology, terminal construction, IT and baggage handling systems and associated equipment

Airport planning and management

Fire protection, emergency and rescue systems

Peripheral protection

Radar, surveillance, control and guidance systems

Aircraft tug/tow tractors

Flight operation services

Aeronautical information services

Meteorological services

Airport and airfield operators

IT solutions for air freight applications

ATC and ATM systems; air traffic control / products / systems

Loading and unloading systems  
Security systems (passengers, baggage, freight)  
People transport systems  
Road, air and sea transportation  
Other airport equipment and services

## Air-launched and ground-based weapons

Weapon system upgrades / spare parts  
Defense system equipment  
Inflight guidance, night vision and optronic systems  
Missile propulsion systems  
Airborne radar, video and fire control systems  
Airborne weapon, missile and guided missile systems  
Air defense systems (ground-based)  
Electronic warfare systems / countermeasures  
Surveillance and reconnaissance systems  
Weapon transportation and release  
Other weapon and electronic warfare systems  
Other weapon-related products and services

## Space

Space surveillance activities  
Space agencies  
Applications, downstream space segment  
Payloads, capacity market and services  
Space components  
Launchers, launch vehicles, orbital transport systems and associated sectors  
Satellites and constellations  
Ground segment and launch centers  
Space systems and equipment  
Space vehicles, orbital operations and services  
Other products and services relating to the space sector

## Airlines & operations

Commercial airlines  
Business aircraft operators, air taxi services  
Freight services  
Aircraft management services  
Fractional ownership services  
Helicopter services  
Simulators / simulator training  
Other products and services relating to the airlines and operations sector

## Authorities & Services

Aerospace insurance  
Aeronautical authorities  
Consulting, engineering, analysis  
Economic development, marketing, market research, Foreign Trade Financing  
Technical documentation / creation / publications  
Data management (storage, ...)  
Logistics chain management  
Governments / public agencies  
Laboratories and research agencies  
Leasing & finance  
International organizations  
Certification agencies  
Standards agencies  
Offset market services  
Electronic trading platforms and solutions / marketplaces / e-learning  
Other products and services relating to the authorities and agencies sector

## Educational institutions, associations and recruitment

Commercial aerospace associations  
Air sports and private pilot associations  
Air rescue associations and organizations  
Industrial and professional associations / commercial groups / commercial associations  
Education / learned societies  
Educational institutions  
Training  
Recruitment  
Other associations

## Media, communications & Events

Professional conferences and trade shows  
Press and Magazines  
Publishers  
Video productions  
Radio and TV  
Other
